AMENDMENTS TO THE SPECIFICATION

Please replace original paragraph [0001] with the following rewritten paragraph:

[0001] The present application is a divisional of co-pending and commonly assigned United States patent application serial number 09/755,894 entitled "IMPLANTABLE INFUSION PUMP," filed January 4, 2001, now U.S. Patent No. 6,666,845, the disclosure of which is hereby incorporated herein by reference.

Please replace original paragraph [0085] with the following rewritten paragraph:

[0085] The bolus port receptacle 86 is connected to the output from pump 20 via a tubing extension 98. The tubing extension 98 extends between the connector 40 and the inlet 86a and is held in place by adhesive, friction, mechanical fasteners, or the like. Catheter receptacle 88 is attached to bolus port receptacle 86 (as shown in FIG. 9) to receive the catheter.
